

**BRASSELER**  
USA<sup>®</sup> SURGICAL

Brasseler Surgical  
is the exclusive  
distributor of the  
ECTR Blade!

## ECTR Disposable Blade Assembly

for use in carpal tunnel surgery

Brasseler Part Number: CTR-455

### ► FEATURES

- The ECTR blade assembly is compatible with the 3M Agee Inside Job System or MicroAire SmartRelease System that you are using today.
- No new capital equipment needed
- No new training or education required
- Safe and effective, proven quality

### And from a surgeon's point of view...

"There's really no change from my perspective as a surgeon... same preparation, same incision, same exposure and dilation tools... most importantly, my patients receive exactly the same high-quality carpal tunnel release with HBL's new blade assembly... and my surgery center administrator loves it when we are under budget."

**Dr. Chris Wilson, MD**

Board-Certified Orthopedic Hand Surgeon with over 20 years of experience treating patients with carpal tunnel syndrome.

**MADE IN  
USA**
